Retired Equine And Care Habitat
A Non-Profit Organization

"Giving life a second chance through rehabilitation and adoption in lieu of slaughter"

R.E.A.C.H. Inc., Retired Equine And Care Habitat is a non profit organization that provides a "second chance at life" for horses that have been abused, neglected or abandoned.

When authorities seize abused horses or when owners no longer provide the necessary care, we take them in, provide a safe healthy environment and any care that is necessary for their recovery and rehabilitation.

R.E.A.C.H. is dedicated to providing a safe habitat for horses that have fallen victim to abuse and neglect.

Our Goal

Our goal is to restore health and trust through a rehabilitation process and ultimately place each horse in a good new home through an adoption process.

At R.E.A.C.H., once the health of a horse has been restored, we believe the first step of the rehabilitation process is trust. Each horse receives daily individual attention to help them regain their trust in humans. The severity of abuse or neglect that each horse has suffered determines the length of the individual rehabilitation period. Each horse progresses at their own pace. Once a horse has attained rehabilitation, we provide a "second chance at life" through an adoption process.

Rehabilitation and adoption are an alternative to slaughter for most horses. Some however have suffered a level of abuse that causes an inability for adoption. These horses will live out the rest of their lives in retirement in our habitat.

Your support is desperately needed and valued.

Your donation is Tax Deductible

Because R.E.A.C.H. is a non profit organization, we rely solely on donations to provide the necessary care for each horse. Your donation enables R.E.A.C.H. to provide these horses with a "second chance at life".

We are continually searching for qualified volunteers who can help with the chores required for multiple horses. We are always needing hay, grain and senior feed. The barn and fences are constantly needing repairs. Panel gates for separation are desperately needed. Feeding bins, water troughs etc. Nothing goes to waste here.

If you are able to provide some support, please call to make arrangements. Become part of our chain of life by giving life a second chance.

Will you help save a horse today?
